ALL APPRENTICES - As approved by U.S. Department of Labor Bureau of Apprenticeship & Training. The wage rates under column Total Hourly Rates as set forth by the Committee are the minimum wage rates to be paid and shall not prevent the employer from paying a higher wage rate. (However, the Hourly rate column plus the Other Hourly Compensation column must equal the Total Hourly Wage Rate column).

The wage rates are established on the date signed, however, if the project is not awarded within 60 days, a new updated wage rate shall be required.

Stipulation as to the employment of apprentices: Apprentices will be permitted to work at less than the predetermined rate for the classification for work they perform when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Bureau of Apprenticeship and Training. Their wage rate will be their individual warranted percentage of the herein listed skilled classification prevailing wage rate. Apprentices shall be permitted to work only as the ratio to journeymen as the apprenticeship program standards state.

The absence of a wage determination for the classes of Semi-skilled and Unskilled workers in a particular classification as the result of the Committee's determination is that the prevailing practice in the immediate locality is not to use Semi-skilled or Unskilled workers in that classification on construction sites.
